now. But we don't do so, because we are living for the future and our task is to solve the problems instead of complaining under them. Although our body is weak, our spirit is ready.

Roman-Catholic Church's Tartu Parish is living in his "second youth" for last 4 years. If in 1987 there was 4 young Estonians in the Parish then now there is more than 100. Our Parish members are young (and also our priest who came to us 4 months ago) average age is fluctuating between 20-30 years. We have done a lot of together-restored abandoned church garden and house, helped personal in children's home, organized a Sunday School etc.

We perceive that we have energy for more and in last 1,5 years we have been looking for greater activity. After several meetings and discussions after we compiled Tartu region's needs and our possibilities (more than 50% of Parish members are with higher education and 40 people from them are with speciality what allows them to work as teachers) we decided that our field of action will be education. WE ARE GOING TO GIVE TO OUR YOUTH A PROPER EDUCATION (PRIMARY+SECONDARY) WHICH IS ACCEPTABLE TO THE CHURCH AND TO DEMOCRATICAL SOCIETY. We will set up a Catholic Private School in Tartu and create an educational system in it.

Create a new system-it's an ambitious plan, but still realistic. Certainly it's hard, but our newborn democracy needs a protection. Somebody must take outrotted waters flow away and replace it with democratic structures or we will fall back into the grip of Stalin.

In order to keep things clearer, to distinguish Parish affairs from future school affairs we founded Catholic Church's Education Society. (See Annexes). This is a Church's organization which after

Noored arutavad teemal: Tuleviku kool

Tartu Katoliku Kooli vapp

Kooli 10. sünnipäevaks kujundas heraldik hr Priit Herodes meile uue vapi. Kilbi punane värvus on ajaloolise Tartu katoliikliku piiskopkonna vapi ja sellest tuletatud Tartu linnavapi põhivärvus. Künälajalg põlevate küünaltega sümboliseerib sügavatele traditsioonidele rajanevat haridus- ja kasvatustööd. Kolm küünalt tähistavad kooli, kirikut ja kodu nende ühises missioonis. Ringi värvid on Püha Franciscuse ja Püha Clara heraldilised tunnusvärvid ning viitavad frantsiskaanlaste juhtivale osale kooli loomisel ja edendamisel.
